performance directions:

Tremolos should be performed as fast as possible and non-measured. They should feel rushed and imprecise. Sometimes there will only be enough space for one or two additional notes.

Grace notes extending from rhythmic pitches should be performed as fast as possible within the approximate space given to them. Rests in parentheses show the rhythmic profile of a voice but can be "played through" by these grace notes.

Approx. duration: 1'00"-1'15"
